EXPERIENCE

- [Battleship Game](#)
Built a battleship game with Javascript. The purpose of the project was to practice unit testing with Jest and follow Test Driven Development methodology.
- [To-do List](#)
Built a to-do list app where users can create to-do lists and folders for them. The app uses LocalStorage API to preserve both to-do lists and folders.
- [Monster Hunter Bestiary](#)
Build a single-page application that uses Firebase for the backend to allow an administrator to manage the content of the app. The purpose of the project was to learn how to use Firebase.
